

## Three Possibilities

Possibility	Finding	Testing/Adjustment
Possibility One	Patient's PD leg lengthens going from Position #1 to Position #2	Begin with knees and feet
Possibility Two	Patient's PD leg shortens going from Position #1 to Position #2	Skip knees/feet and pelvis/pubes; begin with fourth lumbar vertebra
Possibility Three	Legs balance in Position #1 and Position #2	Skip knees, feet and pelvis; begin with pubes
